

**Nama** : **Muhamad Rifda Firdaus. S**  
**NIM** : 20220040211  
**Dosen Pengampu** : NUGRAHA, M.Kom

1. Ketikkan perintah `npx @react-native-community/cli@latest init [nama Project]`. Kali ini, mohon tuliskan dengan nama `helloNamaSendiri`
2. Masuk ke directory tersebut lalu open project menggunakan IDE Visual Code Studio, buka `app.json`
3. Ketikkan perintah `npx react-native run-android` sampai running via emulator atau hp sendiri. Pastikan muncul welcome screen tanpa error.

1. `npx @react-native-community/cli@latest init helloRifda`

- ## 2. Tampilan Visual Code Studio di file app.json

### 3. npx react-native run-android
